

W3 Antenna Strength (ReadyNet Router)

First open a browser (Preferably Google Chrome) and type in 192.168.11.1 and hit **ENTER**
Username is : user, Password: (Written on bottom of the modem) See Diagram

The screenshot displays a web browser window with the following details:

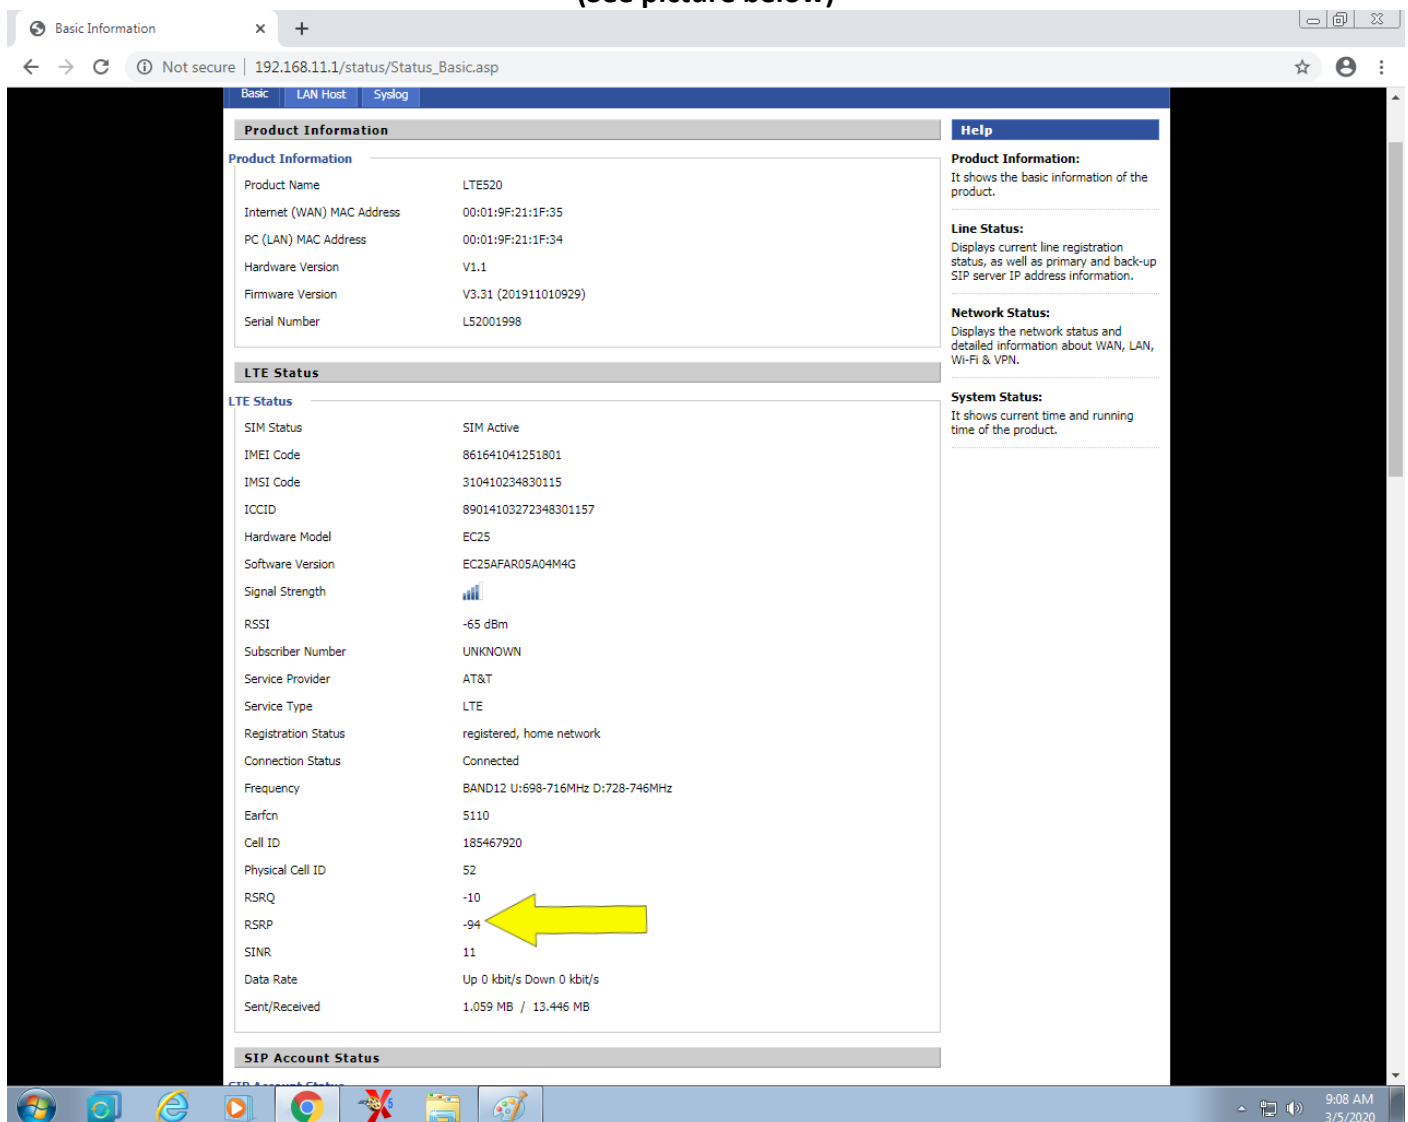

- Browser Tab:** LTE520 Login
- Address Bar:** Not secure | 192.168.11.1/index.asp
- Page Content:**
 - Logo: gotw³
 - Model: LTE520
 - Form fields:
 - Username: user
 - Password: *****
 - Login button
 - Footer: © 2019 ReadyNet Solutions.
- Taskbar:** Shows system tray icons and a clock reading 9:04 AM on 3/5/2020.

Password Diagram

Once logged in you will check the Signal Strength (**RSRP**). **The lower the number the better**. For instance. **-80** is a better signal strength than **-100**. When positioning the modem in the house, we recommend moving the modem around the house to find the best signal. Keep in mind you need to leave the modem in each spot for at least 5 minutes to determine what the signal strength is.

(See picture below)

The screenshot shows a web browser window with the URL `192.168.11.1/status/Status_Basic.asp`. The page is titled 'Basic Information' and has tabs for 'Basic', 'LAN Host', and 'Syslog'. The 'Basic' tab is selected, and the 'Product Information' section is expanded. Below it, the 'LTE Status' section is also expanded, displaying a list of parameters and their values. A yellow arrow points to the 'RSRP' value, which is -94. The 'Signal Strength' parameter is also visible with a signal strength icon.

Product Information	
Product Name	LTE520
Internet (WAN) MAC Address	00:01:9F:21:1F:35
PC (LAN) MAC Address	00:01:9F:21:1F:34
Hardware Version	V1.1
Firmware Version	V3.31 (201911010929)
Serial Number	L52001998

LTE Status	
SIM Status	SIM Active
IMEI Code	861641041251801
IMSI Code	310410234830115
ICCID	89014103272348301157
Hardware Model	EC25
Software Version	EC25AFAR05A04M4G
Signal Strength	
RSSI	-65 dBm
Subscriber Number	UNKNOWN
Service Provider	AT&T
Service Type	LTE
Registration Status	registered, home network
Connection Status	Connected
Frequency	BAND12 U:698-716MHz D:728-746MHz
Earfcn	5110
Cell ID	185467920
Physical Cell ID	52
RSRQ	-10
RSRP	-94
SINR	11
Data Rate	Up 0 kbit/s Down 0 kbit/s
Sent/Received	1.059 MB / 13.446 MB
